

Review of the Municipal Committee on Intercultural Living Together

(template to be completed and adapted by your commission)

To the attention of the College of Aldermen of the municipality of [name of the municipality]

Subject: Improving municipal communication regarding the voting rights of non-Luxembourgish residents

The Committee on Intercultural Living Together of [name of the municipality] (CCVEI), meeting on [date], wishes to draw the attention of the College of Aldermen to the need to strengthen communication and awareness raising regarding the right to vote of non-Luxembourgish residents during municipal elections.

During the 2023 municipal elections, only [absolute value and %] of non-Luxembourgish residents of our municipality registered on the electoral lists, while [absolute value] did not take this step. It is therefore desirable and essential that more non-Luxembourgish residents register and actively participate in local democratic life. To facilitate access to information and encourage broader registration and participation, the Committee proposes the following simple and low-cost measures:

1. Increased visibility on the municipal website

- Add a clearly identifiable tab or section on the municipality's website entitled "Registration on electoral lists"
- Publish simple explanations, in several languages, about the registration conditions and electoral deadlines.

2. Proactive communication

- Share this information regularly and in different formats (municipal bulletin, social media, events organized by the municipality).
- Disseminate flyers and/or posters provided by the MFSVA available in public places (town hall, cultural center, childcare facilities, etc.).

3. Inclusive approach

- Involve the Committee on Intercultural Living Together in discussions about communication tools to ensure they meet the needs of the different communities in the municipality.

The Committee is convinced that these concrete actions will help strengthen information, improve democratic inclusion, and ensure better representation of all residents of the municipality.
